

## **WISLEY APPEAL: Funding request, 9<sup>th</sup> October 2023**

Dear all

The Taylor Wimpey Inquiry commenced a week or so ago and is now fully underway. The WAG transport expert has provided his evidence and the WAG air quality expert is next in the line up.

We have to fight with all we've got and unfortunately, the cost of fighting a large organisation like TW takes both determination and experts to out perform their experts. This community has plenty of the former but the latter sadly comes at a price.

Costs are significant, eye watering high in fact but we know from the number of objection letters and from everyone we talk to in the community, how strongly everyone opposes the development.

A good number of donations to WAG have been made. Our enormous thanks to those who have given.

If you haven't yet donated, please do consider making a donation. Every penny goes straight into the pot to pay for the expert help required.

We know the cost of living crisis is impactful. Inflation has hit us all. All donations help whether they are for a few pounds or for a whole lot more. We are grateful for whatever you can spare.

What none of us want, is to have to stop the battle midway through the Inquiry due to a lack of funds. We don't want to look back and think with regret we didn't do all we can to stop TW in their tracks.

Please help if you can. Every penny counts.

Donations can be made to  
Wisley Airfield Action Group  
sort code 203535  
account number 10574287.

With very many thanks  
Helen & Imogen & Frances & Chris  
WAG, OPC, OHRA, VAWNT
