

Wisley Airfield ~ the Final Chapter.

It is with heavy hearts that we report that the judge at the High Court dismissed our challenge to the Planning Inspector's decision. The challenge was made by Ockham Parish Council, with support from WAG, VAWNT, and the community.

If we had not mounted this challenge, we would never have known if it would succeed, but in the event, it was not to be. At least we know we all fought bravely to the very end.

All through this lengthy battle, we have taken the approach of leaving no stone unturned, but reluctantly, we now feel we must accept where we are.

However, we must all thank one another in our community for everything: for a battle well fought, for all the support, financial, moral and personal in the enormous efforts made in the last 3 years.

Thanks, and best wishes to everyone from VAWNT & WAG.

As a reminder, just a few of those moments are pictured....

Valuable crop of maize on Three Farm Meadows Ockham June 2022 under threat of becoming a huge housing estate

Three generations of families are concerned about where the meals of the future will come from if Three Farm Meadows goes under concrete and come together with VILLAGES AGAINST WISLEY NEW TOWN to object to this threat on a huge green field site adjoining former Wisley airfield
